An integrated Supply Platform

designed to give global buyers a dependable, quality-controlled and scalable supply partner.

1 IRRIGATED CULTIVATION

Reliable volumes
Year-round planning

2 SEZ PROCESSING

Extraction
Quality control

3 TRACEABLE PRODUCTS

Farm-to-extract
transparency

4 GLOBAL BUYERS

Long-term supply
confidence

VEPRIS ARDHI LTD is building an integrated African agro-industrial platform for high-purity essential oils and botanical extracts. Our model combines irrigated cultivation in ISIOLO, KENYA with advanced extraction and export processing within Isiolo's Special Economic Zone.

Why Buyers Choose US

A | Consistent Supply

Irrigated production supports reliable volumes and year-round planning

B | Export-Ready Processing

SEZ-based extraction strengthens efficiency, quality control, and international market access

C | Custom Chemistry

Buyer-specific chemotypes, including targeted basil profiles.

D | Traceable Origin

Farm-to-extract transparency for discerning fragrance, aromatherapy, cosmetics, and pharmaceutical buyers.

E | Certification Pathway

Built around Organic, GLOBALG.A.P and HACCP readiness.

F | Scalable Growth

Commercial volumes targeted for Q1-Q2 2027, with room for early buyer alignment.

Three product platforms targeted for 2027 Commercial Launch

Essential Oils

African Basil EO -
(buyer specific linalool or
estragole) chemotypes

African Ginger EO

Thyme EO

Botanical Extracts

Frankincense extracts

Harpagoside / Devil's Claw
extracts

Bee-Product Derivatives

Premium honey

Bee venom

Enzymes and value-added
derivatives

Essential oils

with African Basil as a differentiated lead

AFRICAN BASIL EO

Linalool or estragole chemotypes

AFRICAN GINGER EO

Premium botanical essential oil

THYME EO

Premium botanical essential oil

CUSTOM CHEMISTRY

The ability to grow and process buyer-specific chemotypes creates a clear basis for specification-led partnerships.

Beyond Oils

extracts and bee-product derivatives

BOTANICAL EXTRACTS

Frankincense extracts

Harpagoside / Devil's Claw extracts

BEE-PRODUCT DERIVATIVES

Premium honey

Bee venom

Enzymes and value-added derivatives

A broader botanical platform allows Vepris Ardhi to serve multiple buyer categories while retaining a common traceability and processing model.

Built around Controlled Origin, Processing & Quality Readiness

1 IRRIGATED PRODUCTION	2 EXTRACTION + SEZ PROCESSING	3 TRACEABILITY	4 CERTIFICATION PATHWAY
Reliable volumes	Quality control	Farm-to-extract	Organic • GLOBALG.A.P • HACCP

QUALITY CONFIDENCE

Specification-led supply, GC-MS requirements and transparent sourcing are built into buyer alignment.

Built for Global Markets

Our stated vision is to become East Africa's trusted producer of premium essential oils and botanical extracts.
